Current Projects: Progress on the website has come to a screeching halt - for now anyway, This month's Newsletter is done and will be passed out at the first domain meeting, Getting everything and everyone in order for ICC, A con for February is in the works (MI Con)

Problems: The CRD and I are having quite the fight: I insist there are new members that should be on there, and it says :P to me. May have to do some digging or poking someone with a stick to find the information I need for specific new members.

Questions: A recent arrival to our group bought a membership online, but instead of his number starting with US2006....., as I expected it would, it started with WW2006..... Does anyone know why this is? Do I need to talk to Kelley B-H to get it fixed or something? I'm just puzzled.
